MATÍAS OLIVERA

Quality Assurance Engineer

matiluzardo3@gmail.com • +598 91 816 459 • linkedin.com/in/matiolivera • Montevideo, Uruguay

PROFESSIONAL SUMMARY

QA Engineer with 7+ years of experience in functional, regression, exploratory, and API testing across telecommunications, e-commerce, e-government, and B2B platforms. Skilled in test automation with Playwright and GitHub Actions, REST API testing, performance testing with k6, and cross-browser testing via BrowserStack. Actively integrating large language models (Claude Sonnet, GPT-4o, Gemini, DeepSeek, GitHub Copilot) and Model Context Protocol (MCP) into QA workflows to drive higher productivity, smarter test coverage, and accelerated delivery.

WORK EXPERIENCE

Net2phone | *QA Specialist* 2023 – Present

- Led end-to-end QA for a complex CCaaS omnichannel platform (VoIP, Dialers, WhatsApp, Email, SMS, Social Media), designing and executing 500+ test cases using Allure TestOps and GitHub.
- Built automated regression suites with Playwright and GitHub Actions; performed REST API testing via Postman; automated workflows with UiPath; managed test environments via SFTP, MySQL, and SSH.
- Integrated LLMs and MCP into QA workflows to generate test cases, analyze defect patterns, and accelerate exploratory testing coverage.

Pyxis | *Functional Tester* 2021 – 2023

- Executed functional and regression testing for e-commerce, B2B, and electronic payment platforms (Antel Pagos, NCAP, CYZONE, L'BEL, EZIKA); defined test strategies from requirements using Xmind, Jira, TestRail, BrowserStack, SoapUI, MySQL, and SAP SD.

T-Machine | *Functional Tester* 2019 – 2020

- Delivered QA for Uruguay's Ministry of Economy e-Government software; designed and executed test cases, performed SOAP API testing, and managed defects in Jira and TestRail within an Agile/Scrum team.

TECHNICAL SKILLS

Test Types	Functional, Regression, Exploratory, Smoke, Sanity, API, E2E, Performance
Automation	Playwright, UiPath, GitHub Actions, CI/CD pipelines, Docker
API & Perf	Postman, SoapUI (REST & SOAP), k6
Cross-browser	BrowserStack
Test Mgmt	Allure TestOps, TestQuality, TestRail, Jira, GitHub Issues
AI / LLMs	Claude Sonnet, GPT-4o, Gemini, DeepSeek, GitHub Copilot, MCP
Scripting	JavaScript, TypeScript, Bash, Java (learning)
Infra / DB	MySQL, Linux, SSH, SFTP, Git/GitHub, HTML, CSS

EDUCATION

UTEC | *Bachelor's Degree in Information Technology (IT)* 2026 – 2029

CERTIFICATIONS & COURSES

Playwright – Udemy (2025)

HTML/CSS & JS – Udemy (2024)

Exploring Service APIs via Test Automation – TestAutomationU (2022)

Selenium IDE – TestAutomationU (2022)

Software Testing – Jóvenes a Programar, Ceibal (2018)

LANGUAGES

Spanish (Native) • **English** (B2 Upper Intermediate – EF SET Certified)
